Sharing implementation status update of the Rs 30,000 crore Special Liquidity Scheme (SLS), Finance Minister Nirmala Sitharaman in a tweet said that 24 proposals with a total sanctioned amount of Rs 8,594 crore have been cleared as on August 21, while 17 more applications seeking financing of up to Rs 3,684.5 crore are under process. Global cues, Q1 GDP expectations to make rupee volatile: Experts

Mumbai: Optimism over the development of Covid-19 vaccine along with broad-based growth trends is expected to induce volatility in the rupee's value during the short term. The US Fed's FOMC minutes, US-China trade talks, and expectations on Q1 GDP rate will be the other key factors steering the rupee. Last week, the rupee strengthened to Rs 74.85 against a greenback. "Expect next week range at Rs 74.60 to Rs 75.10 with some appreciation bias," said Sajal Gupta, Head, Forex and Rates, Edelweiss Securities. "FY21 Q1

GDP numbers are expected to show contraction between 15-20 per cent and any positive surprise could help the market sentiments." According to Anindya Banerjee, DVP, Currency and Rates, Kotak Securities: "Dollar is going to be range-bound due to lack of triggers." "The RBI intervention below Rs 74.80 and exporter selling above Rs 75.30 may keep it between Rs 74.50 and Rs 75.50 per dollar for the medium term." The Reserve Bank of India is known to enter the markets
