Will clear GST dues: Centre to States

Centre writes to States suggesting borrowing options to make up for GST shortfall

PTI ■ NEW DELHI

The centre in a letter to the states has promised it would clear their goods and services tax (GST) dues despite the massive shortfall in GST cess collection amid the coronavirus pandemic, a situation that has been described as “an act of God” by Finance Minister Nirmala Sitharaman. The government in the letter said it wants to stay clear of “avoidable borrowing at the central level when it could be done at the state level” as central revenues are under “great strain” due to the pandemic. The Union Finance Secretary and the Expenditure

Secretary will hold an online meeting on September 1 to answer queries of the states on two options that the centre has proposed - the first being states won't have to service debt or repay it from other sources, and the second being states won't have to repay the principal amount from any other sources.

The central Government on Saturday wrote to States suggesting options of borrowing money to make up for the ₹2.35 lakh crore shortfall in GST revenues expected in the ongoing fiscal.

Two days after first suggesting to states to borrow money to make up for the shortfall at the GST Council meeting, the Finance Ministry wrote to State Governments saying they could borrow either via a special window it will facilitate through the RBI or raise debt from the market.

While the Centre has reasoned its recommendations on

premise that it is already saddled with a large borrowing requirement given the slow-down in revenue collections due to a slump in the economy, non-BJP ruled states such as Punjab, Kerala, Delhi and West Bengal have already stated that raising debt is not an option for already stretched state finances.

In a letter to finance secretaries of all states and union territories, Union Finance Secretary Ajay Bhushan Pandey said while additional borrowing by the Centre influences the yields on central government securities (G-secs) and has other macro-economic repercussions, the yields on state securities do not directly influence other yields and do not have the same repercussions.

“Hence, it is in the collective interest of Centre and states and in the interest of the nation and of all economic entities including the private sector, not to do any avoidable borrowing at the central level

when it could be done at the state level,” Pandey wrote in the letter. Compensation payment has been an issue since August 2019 with GST collections faltering.

In the current fiscal, the compensation requirement of states has been estimated at ₹3 lakh crore, of which ₹65,000 crore would be funded from the revenues garnered by levy of cess.

This leaves a shortfall of ₹2.35 lakh crore.

The Centre has estimated that of this ₹2.35 lakh crore, ₹97,000 crore compensation requirement is due to GST rollout and the remaining is on account of the impact of Covid-19 on the economy.

In the GST Council meeting on August 27, Finance Minister Nirmala Sitharaman had said that Covid-19 is an “Act of God” and it was necessary to differentiate between GST shortfall and the pandemic-related shortfall.

Govt sets out to decriminalise GST laws

IANs ■ NEW DELHI

After company law, the Government has now set out to decriminalise various offences under the GST laws to improve ease of doing business and ensure better compliance.

As part of the changes being considered by the Finance Ministry, a group of officers has been constituted by the Central Board of Indirect Taxes and Customs (CBIC) to hold stakeholder consultations and get inputs from the industry.

A final proposal will then be moved to the Cabinet.

COVID BLUES

Q1FY21 GDP contraction range seen from 17-30%

Clamour for stimulus grows

IANs ■ NEW DELHI

The economic impact of Covid-19 on India's GDP is expected to be anywhere in between 17 per cent and 30 per cent during Q1FY21.

According to leading economists, the measures to curb the pandemic heavily dented manufacturing, services and other sectors apart from agriculture during the quarter.

The country had observed mobility restrictions as mandated under the lockdown measures for the better part of the first quarter of FY21.

It was only on June 1 that partial unlock measures were

implemented.

However, a contraction at this scale has not been witnessed since the quarterly series began in the late 1990s.

In financial parlance, a GDP contraction not only indicates the economy's movement towards a recession, but also underlines the reduction in purchasing power along with lower taxes for the government, higher defaults on debt and falling Capex spends.

“We estimate a contraction of 17 per cent in Q1FY21 GDP as a direct result of lockdown, supply side constraints, and low to nil activity in non-essential manufacturing and services.

While a robust growth in agriculture during this period is going to provide some cushion to the GDP growth, it will be insufficient to substitute the

downfall arising out of the contraction caused in the manufacturing and services sector,” Sunil Kumar Sinha, Principal Economist, India Ratings & Research, told IANS.

“Local or regional or week-end lockdowns and health related concerns of the general public are continuing to act as hindrances towards normalcy of economic activity and the eventual sustainability of growth.

“Given the evolving situation, there is an urgent need to prop-up demand in the economy which had been languishing from even before the Covid-19 related lockdown, otherwise supply side measures announced so far will soon run into difficulty due to lack of demand,” Sinha added.

GSTN starts providing auto-drafted ITC statement to taxpayers

PTI ■ NEW DELHI

GSTN handles the IT backbone of Goods and Services Tax

The GST Network on Saturday started providing auto-drafted input tax credit (ITC) statement GSTR-2B which would assist the taxpayers in determining their ITC liability.

GSTN handles the IT backbone of Goods and Services Tax (GST).

GSTR-2B will be generated on GST portal for every registered person on the basis of the information furnished by his suppliers and will be made available for each month, on

the 12th day of the succeeding month, GSTN said in a statement.

“It is expected that GSTR-2B will help in reduction in time taken for preparing return, minimising errors, assisting reconciliation and simplify compliance relating to filing of returns,” it said.

There shouldn't be further delay in NCDRC appointments: SC

PTI ■ NEW DELHI

There should not be a further delay in appointing members of the National Consumer Disputes Redressal Commission (NCDRC), the Supreme Court has said, asking the Centre to complete the process soon.

A bench of Justices L Nageswara Rao, Hemant Gupta and S Ravindra Bhat made the observation while extending

the term of an NCDRC member who is scheduled to retire on Sunday. “The finalisation of the selections and appointments of members of NCDRC does not brook further delay,” it said. “We hope and trust that the appointments to the NCDRC shall be made soon.” The apex court was considering a plea by the NCDRC member who has filed an application seeking a direction for extension of his service till the regular appointments are made. Attorney General K K Venugopal submitted that the recommendations made by the selection committee were under the consideration of the cabinet (ACC).

The top court said as the applicant was due to retire on August 30, the term of his appointment was extended for a month. The apex court had earlier expressed its displeasure over pending vacancies in the NCDRC and said the issue had to be addressed urgently.

Tesla targeted in failed ransomware extortion scheme

AP ■ BOSTON

In a tweet, Tesla CEO Elon Musk solved a mystery involving a 27-year-old Russian, an insider at an unnamed corporation and an alleged million-dollar payment offered to help trigger a ransomware extortion attack on the firm. Prosecutors declined to name the target, but Musk was happy to oblige. According to the billionaire, the scheme took aim at the electric car company's 1.9 million-square-foot factory in Sparks, Nevada, which makes batteries for Tesla vehicles and energy storage units. “This was a serious attack,” Musk tweeted Thursday night, responding to a Tesla blog post that detailed the brazen scheme. Defendant Egor Igorevich Kriuchkov tried to recruit a fellow Russian speaker who worked at the plant, according to a criminal complaint filed in US District Court in Nevada.

Reaching out to the unnamed worker via WhatsApp in July, Kriuchkov allegedly flew to the United States with a Russian passport on a tourist visa and sought to entice the worker to betray Tesla. Kriuchkov allegedly took the worker, who he'd first met in 2016, on a road trip to Lake Tahoe before offering the person \$1 million to plant malware on computer systems at “Victim Company A”. Kriuchkov floated the scheme at a Reno area bar on August 3 after the two drank heavily until last call, the complaint says. But the plant worker informed Tesla, which contacted the FBI and won the employee's cooperation. In subsequent meetings monitored and recorded by federal agents, Kriuchkov laid out a scheme to have the worker infect Tesla computers with a program that would steal valuable data before scrambling plant systems with ransomware, according to the complaint.

Jaipur: Rajasthan Housing Commissioner Pawan Arora said a large number of people planted saplings at City Park, Mansarovar by registering on

Mandal's RHB Green app. People came in two slots from 8am to 10 am and from 4 pm to 6 pm in the park.

	2. Diluted:	0.01	0.01	(0.12)
Notes:				
(1) The standalone unaudited financial results of the Company have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (India Accounting Standards) Rules, 2015 as amended by the companies (Indian Accounting Standards) Amendment Rules.				
(2) The figures for the quarter ended 31 March 2020 are a balancing figure between the audited figures of the full financial year and the unaudited year to date figure up to the third quarter of the financial year ending 31 March 2020.				
(3) The company has only one segment of revenue.				
(4) The Company's operations and financial results for the quarter have been very adversely impacted by the lockdown imposed to contain the spread of COVID-19. Further to declaration of COVID 19 as a pandemic by the World Health Organisation in March 2020 and the nationwide lockdown announced by the Government of India on 24 March 2020, the operations of the Company were severely disrupted resulting in significant loss of revenue with retail operations remaining closed for the whole of first quarter ended 30 June 2020. Even with the partial lifting of lock down the retail scenario remains grim due to negative consumer sentiments, low discretionary spends, high gold prices, most of the employees working from home among other factors. The results of the quarter are therefore not comparable with those of the previous quarter or same quarter last year. The Company has assessed the impact of pandemic on its financial results/position based on the internal and external information available up to the date of approval of these financial results and expects to recover the carrying value of its assets.				
(5) During the quarter ended 30 June 2020, the Company has renegotiated with certain landlords on the rent reduction/ waiver due to COVID 19 pandemic. The Management believes that such reduction/ waiver in rent is short term in nature and also meets the other conditions in accordance with the notification issued by the Central Government in consultation with National Financial Reporting Authority dated 24 July 2020 as Companies (Indian Accounting Standards) Amendment Rules, 2020 with effect from 1 April 2020. Thus, in accordance with the said notification, the Company has elected to apply the practical expedient available and the reduction/ waiver does not necessitate a lease modification as envisaged in the Standard. Accordingly, the Company has recognised '1.91 lacs in the statement of profit and loss for the quarter ended 30 June 2020).				
(6) Response on basis for qualified conclusion in limited review report -				
a. Trade Receivables are classified as Financial Instruments under Ind-AS 109 and the Company is required to provide for impairments/ obligations as per "Expected Credit Loss (ECL) Method. Since the matter is still being decided by the Honourable Court. The Company is presently not in a position to quantify the impairment amount as per the said accounting standards and hence has decided to wait for the Court's outcome before providing for any "Expected Credit Loss" under Ind-AS 109.				
b. Management is of the view that notional foreign exchange gain or loss does not have any material impact on the Cash flows or going concern, as the same is provided as per the requirements of Ind-AS 21.				
c. As regards reliance on cash sales, it is correct as the Company presently does not have any external borrowings primarily due to the reason that the Promoter's has been unable to actively manage the Company due to his open offer application pending with SEBI from 2014 onwards and as a consequence his entire shareholding being locked in an escrow account as per SEBI guidelines. We are given to understand that the promoter has filed a settlement application with SEBI and the same is expected to be resolved shortly. Any favourable resolution will have a positive impact on the Company both financially as well as operationally.				
(7) Figures relating to the previous periods/year have been regrouped / reclassified wherever considered necessary.				
(8) The above results have been reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on August 29, 2020. The same have also been subjected to Limited Review by the Statutory Auditors.
