Notes:				
1) These results have been prepared in accordance with the Indian Accounting Standard (referred to as "Ind AS") 34 Interim Financial Reporting prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time and in compliance with Regulation 33 of the Listing Regulations. These results have been reviewed by the Audit Committee at its meeting held on February 13, 2021. The statutory auditors have expressed a qualified conclusion on these results.				
2) The company has only one reportable segment namely "Jewellery retail".				
3) The Company's operations and financial results for the quarter have been adversely impacted by the lockdown imposed to contain the spread of COVID-19. Further to declaration of COVID 19 as a pandemic by the World Health Organisation in March 2020 and the nationwide lockdown announced by the Government of India on 24 March 2020, the operations of the Company were severely disrupted resulting in significant loss of revenue with retail operations remaining closed for the major part of nine month period ended 31 December 2020. Even with the partial lifting of lock down the retail scenario remains grim due to negative consumer sentiments, low discretionary spends, high gold prices, most of the employees working from home among other factors. The Company has assessed the impact of pandemic on its financial results/position based on the internal and external information available up to the date of approval of these financial results and expects to recover the carrying value of its assets.				
4) During the period ended 31 December 2020, the Company has renegotiated with certain property owners on the rent reduction/ waiver due to COVID 19 pandemic. The Management believes that such reduction/ waiver in rent is short term in nature and meets the other conditions in accordance with the notification issued by the Central Government in consultation with National Financial Reporting Authority dated 24 July 2020 as Companies (Indian Accounting Standards) Amendment Rules, 2020 with effect from 1 April 2020. Thus, in accordance with the said notification, the Company has elected to apply the practical expedient available and the reduction/ waiver does not necessitate a lease modification as envisaged in the Standard. Accordingly, the Company has recognised Rs 31,750 during the quarter (Rs.2.43 lacs for nine months period) in the statement of profit and loss.				
5) Response on basis for qualified conclusion in limited review report –				
a. Trade Receivables are classified as Financial Instruments under Ind-AS 109 and the Company is required to provide for impairments/ obligations as per "Expected Credit Loss (ECL) Method. Since the matter is still being decided by the Honourable Court, the Company is presently not in a position to quantify the impairment amount as per the said accounting standards and hence has decided to wait for the Court's outcome before providing for any "Expected Credit Loss" under Ind-AS 109.				
b. Management is of the view that notional foreign exchange gain or loss does not have any material impact on the Cash flows or going concern, as the same is provided as per the requirements of Ind-AS 21.				
c. As regards reliance on cash sales, it is correct as the Company presently does not have any external borrowings primarily due to the reason that the Promoter's has been unable to actively manage the Company as his open offer application is pending before SEBI from 2014 onwards and as a consequence his entire shareholding remains locked in an escrow account as per SEBI guidelines. We are given to understand that the promoter has filed a settlement application with SEBI. Any favourable resolution will have a positive impact on the Company both financially as well as operationally.				
6) Figures relating to the previous periods/year have been regrouped / reclassified wherever considered necessary.				
7) The results for the quarter and nine month ended December 31, 2020 are available on the BSE Limited website www.bseindia.com and on the Company's www.atlasjewelleryindia.com.

Facebook's Oversight Board takes up new case from India

PTI ■ NEW DELHI

Facebook's Oversight Board has taken up a new case related to a user's post that was shared from a Punjabi-language online platform and contained insinuations against Rashtriya Swayamsevak Sangh (RSS) and Prime Minister Narendra Modi.

While the post was initially taken down for violating Facebook's community guidelines, the social media company later restored the content.

The Oversight Board is an independent body set up by Facebook last year to look into hate speech and other undesirable content on the platform.

Previously, the Oversight Board had undertaken five cases, including one from India wherein a user had called for violence against French President Emmanuel Macron over a cartoon of Prophet.

In that particular case, the Board has overturned Facebook's decision to remove the content.

Oxford University launches Covid-19 vaccine study on children

PTI ■ LONDON

The University of Oxford has launched the first study to assess the safety and immune responses in children and young adults of its coronavirus vaccine.

The university said that previous trials of its ChAdOx1 nCoV-19 jab, which are being produced by AstraZeneca and also have a tie-up with the Serum Institute of India, have

shown that it is safe, produces strong immune system responses and has high efficacy in all adults.

From Friday, it would be extending its trials to assess if children and young adults aged 6-17 years also show a good immune response to coronavirus from it.

"While most children are relatively unaffected by coronavirus and are unlikely to become unwell with the infec-

tion, it is important to establish the safety and immune response to the vaccine in children and young people as some children may benefit from vaccination," said Andrew Pollard, Professor of Paediatric Infection and Immunity, and Chief Investigator on the Oxford vaccine trial. "These new trials will extend our understanding of control of SARS-CoV2 to younger age groups," he said.
